

Spring, 2017

Dear Festival Sponsor,

It's all about the **Great Outdoors!** Please join us again this year to celebrate the Great Outdoors at the 15th Annual **Woods Water & Wildlife Festival** to be held Saturday, August 12th at Branch Hill Farm in Milton Mills. Your sponsorship makes this family oriented celebration possible and supports the essential conservation work of Moose Mountains Regional Greenways (MMRG).

The Woods Water & Wildlife Festival is our most important yearly outreach event and fundraiser and we count on the generosity of area businesses and organizations like yours. Your past support has helped us to grow this event into a local summer tradition, attracting **over 600 attendees** for the last three years! You can view scenes from last year's festival on a website slideshow at www.mmrinfo.com/festival/.

We deeply appreciate your contribution and work hard to publicly recognize your gift.

Our conservation projects promote multiple recreational opportunities, protect healthy forests and wildlife, and provide clean air and water for today and for tomorrow's generations. Over the last 17 years, MMRG has assisted in conserving more than 5,000 acres and we are excited to own our first outright purchase known as *Branch River Conservation Area!*

Our 2016 WWW Festival brochure can be viewed on our Festival webpage, www.mmrinfo.com/festival/; it shows all the wonderful activities that **YOU** helped sponsor. You'll also find a great newspaper article about the day's events. In addition, you can download a sponsor levels and benefits sheet and a sponsorship return form. As always, **your gift will be matched dollar for dollar** by the Siemon Company and Branch Hill Farm/Carl Siemon Family Charitable Trust.

Can we count on you again this year and will you consider increasing your festival sponsorship donation?

Please feel free to contact the office at 603-473-2020 if you have any questions about the festival or sponsorship.

Sincerely,

Cynthia and Art

Cynthia S. Wyatt, MMRG Founding Member and Board Member
Art Slocum, MMRG Board Member
